

Forma 5

Neo

Design by R&D Forma 5

The Neo series offers a classical style with its L-shaped leg design whilst offering modern finishes and configurations, allowing for a harmonious and elegant result.

La serie Neo ofrece un estilo clásico en su diseño de pata en "L" y moderno en sus acabados y configuraciones, consiguiendo así un conjunto armonioso.

Le programme Neo offre un style classique avec son pied en « L », mais moderne aussi grâce à ses finitions et ses configurations possibles dans un ensemble harmonieux.

In the Neo program, the 19mm melamine modesty panel provides key functionality whilst also being aesthetically pleasing to the eye. The top and the modesty panel have the same finishes with 5 different color options available to choose from.

En el programa Neo, el faldón bilaminado estructural de 19 mm de espesor aporta funcionalidad y estética a la vez. El acabado de la tapa y el faldón va a juego, pudiéndose elegir entre 5 colores diferentes.

Les bureaux du programme Neo possèdent un voile de fond en mélamine structurel (épaisseur : 19 mm) ce qui apporte à la fois fonctionnalité et esthétique. Mêmes finitions du plateau et du voile de fond entre 5 coloris au choix.

Rectangular desks, with or without return desk, compact return desks of different width or depth, wave desks and L-shaped. Neo has many different top desk options that make it fit the needs and requirements of any requested workspace.

Mesas rectangulares, con o sin alas, compactas con diferentes anchos y fondos de alas, con forma de piano y en "L"; Neo presenta diferentes geometrías de tapa que la hacen adaptarse a las necesidades del puesto requerido.

Plateaux droits, avec ou sans retour, bureaux compacts avec différentes largeurs et profondeurs de retour, avec forme « piano » ou en « L »... la collection de bureaux Neo présente différentes géométries de plateaux afin de s'adapter aux besoins ergonomiques des utilisateurs.

The user need is not just for a work surface, but also a space for personal storage, to sort files and to obtain more privacy.

Las necesidades del usuario no sólo pasan por una superficie de trabajo, sino también por un espacio para el almacenaje personal y otro para la clasificación de archivos o unos separadores para obtener mayor privacidad y ordenación del puesto a tercer nivel.

l'utilisateur ne se contente pas d'une surface de travail, il a aussi besoin d'un espace pour le rangement personnel , pour le classement d'archives , il a souvent besoin également de séparateurs dans différents matériaux pour avoir une intimité plus grande et d'un système de rangement ou d'organisation grâce aux rails intégrés dans ceux-ci pour adapter des bras d'écrans d'ordinateurs ou des corbeilles de rangement.

Models / Modelos / Modèles

Neo

- Rectangular desk
- Mesa recta
- Bureau rectangulaire

- Rectangular desk + return desk
- Mesa recta + ala
- Bureau rectangulaire + retour

- Wave desk
- Mesa piano
- Bureau onde

- Compact desk
- Mesa compacta
- Bureau compact

- “L” desk
- Mesa “L”
- Bureau “L”

Leg finishes / Acabados del pedestal / Finitions du Piètement

7 – Porta CPU
8 – Separador bilaminado
9 – Separador tapizado
10 – Separador vidrio
11 – Separador técnico

1 – voile de fond en mélamine structuré
2 – Sortie câbles carrée
3 – Plaque électrifiable
4 – Tablette grille métallique simple abattable
5 – Goulotte en polypropylène
6 – Colonne métallique pour câbles
7 – Porteur PC
8 – Écran mélaminé
9 – Écran tapissé
10 – Écran en verre
11 – Écran technique

Designers / Diseñadores / Designers

Forma 5 Research and Development department is formed by engineers, architects and designers. The staff is the key for innovating and evolving and they have helped develop successful chair and furniture programs. Another key factors are the accumulated experience and continuous industrial design training, new technologies and new materials.

The Research and Development department of Forma 5 is composed by an extensive group of engineers, architects and designers. They are the key for innovation and evolution of the company's product portfolio. With them, Forma 5 has developed the most successful programs in terms of office furniture, such as operational seating and directional seating, thanks to three decades of accumulated experience and continuous industrial design training, new technologies and materials.

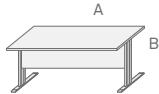

The Research and Development department of Forma 5 is composed by an extensive group of engineers, architects and designers. They are the key for innovation and evolution of the company's product portfolio. With them, Forma 5 presents a very complete range at the level of chairs and office furniture. Three decades of experience and continuous formation in design, new technologies and research of innovative materials.
